March of Dimes News from <http://www.marchofdimes.com>

Among the many resources that the March of Dimes offers to parents and healthcare providers is an online NICU patient family education site. Check it out and tell your patient families they might like to look at some of the topics. <https://www.marchofdimes.org/complications/the-nicu.aspx>

Here are some examples of the topics on the webpage. There are many more!

- A dad's role in the NICU
- Caring for multiples
- Child care after the NICU
- Common conditions treated in the NICU
- Common NICU equipment
- Common tests in the NICU
- Communicating with your baby's health care providers in the NICU
- Continuing medical care after the NICU
- Coping with stress in the NICU

SEFANN NEWS:

Save the Dates for Hot Topics 2018
Hot Topics will be on March 8 and 9 2018 at the Miami Airport Convention Center/Miami Merchandise Mart. We have an exciting program including nationally recognized speakers. There will be poster presentations, vendor displays and meals included. Don't miss Hot Topics 2018! CEU's offered for Nursing and Respiratory therapy ·

NANN NEWS: Inhaled nitric oxide fails to improve survival in high-risk preterm infants [Hasan SU, et al. JAMA Pediatrics. 2017;doi:10.1001/jamapediatrics.2017.2618](#) **September 28, 2017 Use of inhaled nitric oxide in high-risk preterm infants between 5 and 24 days of birth was safe but did not improve survival without bronchopulmonary dysplasia under certain circumstances, according to findings recently published in *JAMA Pediatrics*. "With modern neonatal care, approximately 40% of survivors with gestational age younger than 30 weeks develop bronchopulmonary dysplasia," Shabih U. Hasan, MD, DCH, FRCPC, of the department of pediatrics at the**

(NANN cont.) Cumming School of Medicine, University of Calgary, Alberta, Canada, and colleagues wrote. "Prevention and treatment of evolving [bronchopulmonary dysplasia] is an important clinical concern because it is associated with long-term pulmonary disease and neurodevelopmental impairment."
